Verification of Work Experience — Engineer by Comity

Work experience forms and letters of reference must bear the signed and dated PE stamp (seal) of the verifier. A supervisor or department manager who was licensed as an engineer at the time of employment can verify the work of exam applicants.

If you have at least five years of post-registration experience, in lieu of work experience verifications, you may provide two current letters of reference from registered engineers in the same discipline for which you are applying to verify that experience. The letters should address:

- your professional experience on projects;
- your ability and character;
- their professional association to you;
- how long they have been an associate of yours (minimum of 5 years);
- their specific branch of engineering practice; and
- their registered discipline (if applicable).

→ **Applicant:** Complete the identifying information below and forward a copy of this form to your employer or supervisor where you obtained your work experience. *Make additional copies of this form, as needed.*
